REFFA FABYAN MAULANA

WEB DEVELOPER · VIDEO EDITOR · AI-FLUENT BUILDER

Student web developer and video editor at SMKN 7 Baleendah, Bandung. I build web apps with PHP and MySQL, Unity games and short-form edits, and I work fluently with AI: structured prompts, then reviewed and tested output. A competitive middle and long-distance runner, I bring the same consistency to every project.

PROJECTS

Portal Sekolah PHP · MySQL · sevenpunya.rf.gd
A digital classroom where students submit assignments and teachers track tasks, grades and attendance.

Run to Finish Unity · playable on itch.io
A 2D athletics game playable in the browser. Manage stamina and pace to reach the line, then upgrade.

Personal Portfolio HTML · CSS · JavaScript · WebGL
This portfolio: interactive hero with a WebGL aura effect, built without a framework and deployed on GitHub Pages.
